WHAT'S DOIN' Just sit down and listen...

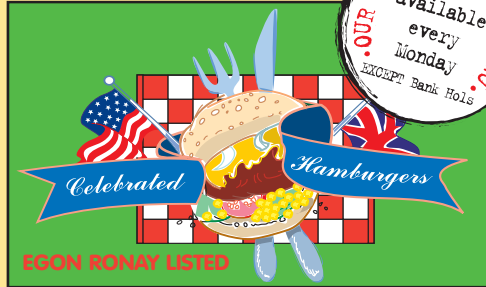

The first What's Cooking was established in West Kirby in 1978. No.2 What's Cooking followed in hot pursuit in Heswall in 1981 and from there the future holds great things because our meals are big, beautiful and priced just right, you are well looked after by our lovely waitresses and our service is second to none.

Not everything on this menu is here for keeps. Like the baked potatoes, they come and they go. It depends on availability. And Saucy Susie isn't always in the mood...like her performance with Dishy Desserts it's strictly up and down...cos that depends on availability too, but 95% of the time you won't be disappointed.

Your mouth's already watering! The bottom line is - we've got variety. We've got good food. And we've got service. You won't get all that together

anywhere round here... unless you go to our other places. So sit tight and we'll be right with you.

Who could ask for anything more?

What's not to like?
